SEDAN GIVEN TO FASTEST FLYER

Winner of Pulitzer Trophy Receives Dodge From Detroit Car Builders.

Just before departing for his home in San Francisco, Lieut. R. L. Maughan, who won the Pulitzer trophy when he broke the world's speed record in the aviation races at Mount Clemens, Mich., was presented with another and wholly unexpected trophy. It was a new Dodge Brothers sedan, given by Dodge Brothers, Detroit, manufacturers, as evidence of their interest in the promotion of aviation.

The ceremonies were witnessed by Herbert Hoover, Secretary of Commerce, Brig. Gen. William Mitchell, assistant chief of U. S. Air Service and other notables. Immediately after the presentation, General Mitchell mounted the plane in which Lieutenant Maughan had lowered the world's record and proceeded to establish other records for straight flights.

The gift of the sedan is particularly significant in view of the fact that it is the first car ever presented to an individual by Dodge Brothers.

Secretary Hoover commented on it as a "splendid example of the patriotism that the country needs if it is to maintain its superiority in the air."

General Mitchell was equally enthusiastic.

Mr. Bloomer, in his presentation address, said:

"It is our belief that an adequate air force, equipped and maintained to the highest point of efficiency, is absolutely necessary to the safety of this country. Because of this we rejoice in presenting a specimen of our own product to the winner of these contests, feeling that by so doing we are evidencing our respect and admiration for all those who have contributed in any way to your remarkable achievement."

Lieutenant Maughan departed immediately for his home in San Francisco, where the Dodge Brothers dealer, J. E. French, formerly of Detroit, arranged a huge reception on his arrival.

JENKINS GARAGE MOVED TO CITY

Gray Agency Opens Service Station and Display Rooms on Meredith Street.

The Jenkins Garage, formerly located in Farmington, has sold its location there and moved its service station and Gray agency to 403 Meredith street, just back of Harvey's Restaurant.

Ervin Jenkins says that his move to Fairmont is just one step farther in the service the garage is giving Gray owners. This new and convenient location enables one to get quick service, as well as being able to see the different open and closed models that are on display. The different model Grays now procurable are the two-passenger roadster, the five-passenger touring car and the four-passenger coach, and it has been announced by the factory that it will only be a short time until they will have the production of their five-passenger sedans under way.

Two models that are proving very popular, especially with business men and doctors, are the roadster and four-passenger coach. Their light weight and economy in upkeep make them especially desirable to the man who wants a light car, yet one that will have the "pop" and stability of the heavier and more expensive makes.

Mr. Jenkins says that for a short time at least he will be able to give prompt delivery on orders for either the touring car, roadster or coach. Cars are on display now at the new location at 403 Meredith street, just back of Harvey's Restaurant on Madison street. F. o. b. prices are \$490 for the roadster and touring car and \$760 for the four passenger coach.

17,666 AUTOS BUILT BY BUICK IN MONTH

The Buick Motor Co. built during the month of October a total of 17,666 automobiles.

In achieving this remarkable result, the Buick daily shipment figures of all time were, several times broken. On October 12, 775 cars were shipped, 910 went on October 25, 973 on October 26 and 1,029 on October 30. All the foregoing records apply to the combined business of the Flint and Detroit plants.

While surpassing the production record of September which was 16,541, a record month up to that time, the figure just achieved is best appreciable by comparison with the October records of previous years. In October, 1920, it was 13,121 and in October, 1921 it was 9,113.

CHEVROLET ZONE OFFICE CHANGED

Better and More Economical Service Expected by Marion Motor Co.

With the establishment of a zone office of the Chevrolet Motor Co. in Pittsburgh, officials of the Marion Motor Co. of Fairmont expect to obtain improved service in both the delivery of cars and parts. The Fairmont agency was under the Cincinnati zone office until Wednesday, when all the records of the Cincinnati office were transferred to Pittsburgh.

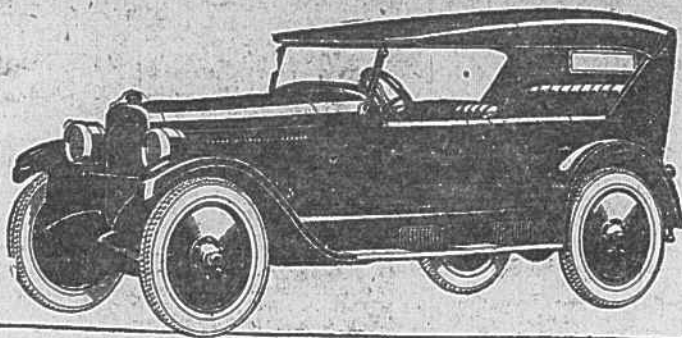

D. E. Ralston, sales manager of the Pittsburgh zone office, which is located at Center avenue and Cypress street, is expected in Fairmont next week to arrange for the future handling of the business of the local concern through the Pittsburgh office.

This change, it is said, has been brought about by a study of conditions in the West Virginia territory, the belief being that the Mountain State dealers will be able to transact their business more economical through Pittsburgh than through Cincinnati.

ANOTHER CAR TO BE GIVEN AWAY HERE

So successful have been the two contests conducted by the Home Furniture Co. that the officers of the firm have decided to give away a third Ford touring car, the next machine to be awarded on Christmas eve. It has also been announced that all the tickets issued for the two other cars given away will be good for the drawing on Christmas eve.

The CHALMERS SIX

Studebaker

It is not necessary to buy a high-priced roadster to get maximum comfort. Comfort is a matter of correct design. Comfort is built into the Studebaker Light-Six.

The seat is placed at just the right angle for relaxation and is provided with big, fat cushions, upholstered in genuine leather. The semi-elliptic springs are long, strong and resilient.

There is ample luggage space under the rear deck—plenty of room for everything you may want to carry.

Vibration, which is so destructive to motor cars, is practically eliminated by the perfect balance of the motor. This is largely due to the fact that the crank-

shaft and connecting rods are machined on all surfaces, an exclusive Studebaker practice for cars at anywhere near the Light-Six price.

Economy of operation is increased by valves inclined at a 20-degree angle and by the internal hot spot.

This handsome roadster is a quality car throughout. It is sold at \$975 only because of complete manufacture, in large volume, in one of the most modern and complete motor car plants in the world.

Middlemen's profits are thus eliminated, and the savings are passed on to you.

The Light-Six Roadster well upholds Studebaker's 70-year reputation for dependability and dollar-for-dollar value.

Attractive cowl lights. Theft-proof transmission lock. Cowl ventilator. Storm curtains opening with the doors. Large plate-glass window in rear curtain. Inside and outside door handles. Upholstered in genuine leather. Ample space under the rear deck for luggage.

DODGE BROTHERS SEDAN

Many who could well afford more expensive cars are showing a marked preference for Dodge Brothers Sedan.

They find it easy to drive, economical to run, and comparable in beauty and elegance with cars much higher in price.

In the vast amplitude of Dodge Brothers closed body plant, this sedan is constructed with all the studious precision that marks the work of the finest custom builders.

Eighteen days are devoted alone to the 18 rubbing and varnishing operations which are responsible for the unusual brilliancy of its lustre.

Months of seasoning precede the use of the fine, critically selected ash which gives the body its rugged firmness.

The interior fittings, too, are chosen with thoughtfulness and rare good taste. The upholstery is covered with genuine mohair velvet of a singularly rich and beautiful pattern. The seats are roomy and luxurious.

Steel disc wheels (with cord tires) harmonize in a most effective way with the new grace and smartness which Dodge Brothers have recently brought to the lines of the body.

The price is \$1,550.00 delivered.
